

Submariner Date

Oyster, 41 mm, yellow gold

A close-up, artistic photograph of a Rolex Oyster Perpetual Submariner Date watch. The watch is shown from a low angle, focusing on the bezel and the upper part of the dial. The bezel is a vibrant blue ceramic with a fluted edge. The dial is a deep royal blue with large, luminescent hour markers. A date window is visible at the 3 o'clock position, featuring a Cyclops lens. The watch is set against a dark, textured background.

markers.**

UNIDIRECTIONAL ROTATABLE BEZEL

An underwater tool

The Submariner's rotatable bezel is a key functionality of the watch. Its 60-minute graduations allow a diver to accurately and safely monitor diving time and decompression stops.

Manufactured by Rolex from a hard, corrosion-resistant ceramic, the Cerachrom bezel insert is virtually scratchproof. A luminescent capsule on the zero marker ensures legibility, no matter how dark the environment. The bezel's knurled edge is carefully designed to offer excellent grip under water, even with gloves.

ROYAL BLUE DIAL

For legibility underwater

The dial’s luminescent Chromalight display is an innovation that improved visibility in dark environments, an essential feature for divers.

Hour markers in simple shapes – triangles, circles, rectangles – and broad hour and minute hands enable instant and reliable reading to prevent any risk of confusion underwater.

18 CT YELLOW GOLD

Commitment to excellence

By operating its own exclusive foundry, Rolex has the unrivalled ability to cast the highest quality 18 ct gold alloys. According to the proportion of silver, copper, platinum or palladium added, different types of 18 ct gold are obtained: yellow, pink or white.

They are made with only the purest metals and meticulously inspected in an in-house laboratory with state-of-the-art equipment, before the gold is

formed and shaped with the same painstaking attention to quality. Rolex's commitment to excellence begins at the source.

THE OYSTER BRACELET

Alchemy of form and function

The Oyster bracelet is a perfect alchemy of form and function, aesthetics and technology, designed to be both robust and comfortable.

It is equipped with an Oysterlock clasp, which prevents accidental opening, and an ingenious Glidelock, allowing fine adjustments of the bracelet without using any tools — and allowing it to be worn comfortably over a diving suit.

Model Case

Type

Oyster, 41 mm, yellow gold

Diameter

41 mm

Material

Yellow gold

Bezel

Unidirectional rotatable 60-minute graduated, scratch-resistant
Cerachrom insert in blue ceramic, numerals and graduations coated in gold

Oyster Architecture

Monobloc middle case, screw-down case back and winding crown

Winding Crown

Screw-down, Triplock triple waterproofness system

Crystal

Scratch-resistant sapphire, Cyclops lens over the date

Water Resistance

Waterproof to 300 metres / 1,000 feet

Movement

Type

Perpetual, mechanical, self-winding

Calibre

3235, Manufacture Rolex

Precision

-2/+2 sec/day, after casing

Oscillator

Paramagnetic blue Parachrom hairspring. High-performance Paraflex shock absorbers

Winding

Bidirectional self-winding via Perpetual rotor

Power reserve

Approximately 70 hours

Functions

Centre hour, minute and seconds hands. Instantaneous date with rapid setting. Stop-seconds for precise time setting

Bracelet

Type

Oyster, three-piece solid links

Clasp

Folding Oysterlock safety clasp with Rolex Glidelock extension system

Bracelet Material

18 ct yellow gold

Dial

Type

Royal blue

Details

Highly legible Chromalight display with long-lasting blue luminescence

Certification

Type

Superlative Chronometer (official chronometer certification + Rolex certification after casing)
