

Padellone

39 mm, 18 kt Everose gold, polished finish

The Perpetual Padellone in 18 kt Everose gold features a 39 mm case, an intense white dial and a Settimo bracelet.

INTENSE WHITE DIAL

A focus on harmony

The dial features a grained finish at its centre and fine satin finish around the edge, faceted hour markers and 3 and 9 numerals in 18 kt pink gold. A discreet railway minute track surrounds the intense white dial.

In addition to the calendar indications, it is graced with a blue enamelled moonphase disc displaying the full moon and the new moon, both crafted in meteorite and the second of the two treated with a dark blue PVD coating. The face on each moon is pad printed, as are the surrounding silver stars.

DOMED AND FLUTED BEZEL

Finely presented

Fitted with a domed and delicately fluted bezel, the Padellone features a 39 mm case with graceful lines.

The upper part of the bezel is domed while the lower part is finely fluted, in a contemporary expression of traditional watchmaking and the brand’s aesthetic heritage.

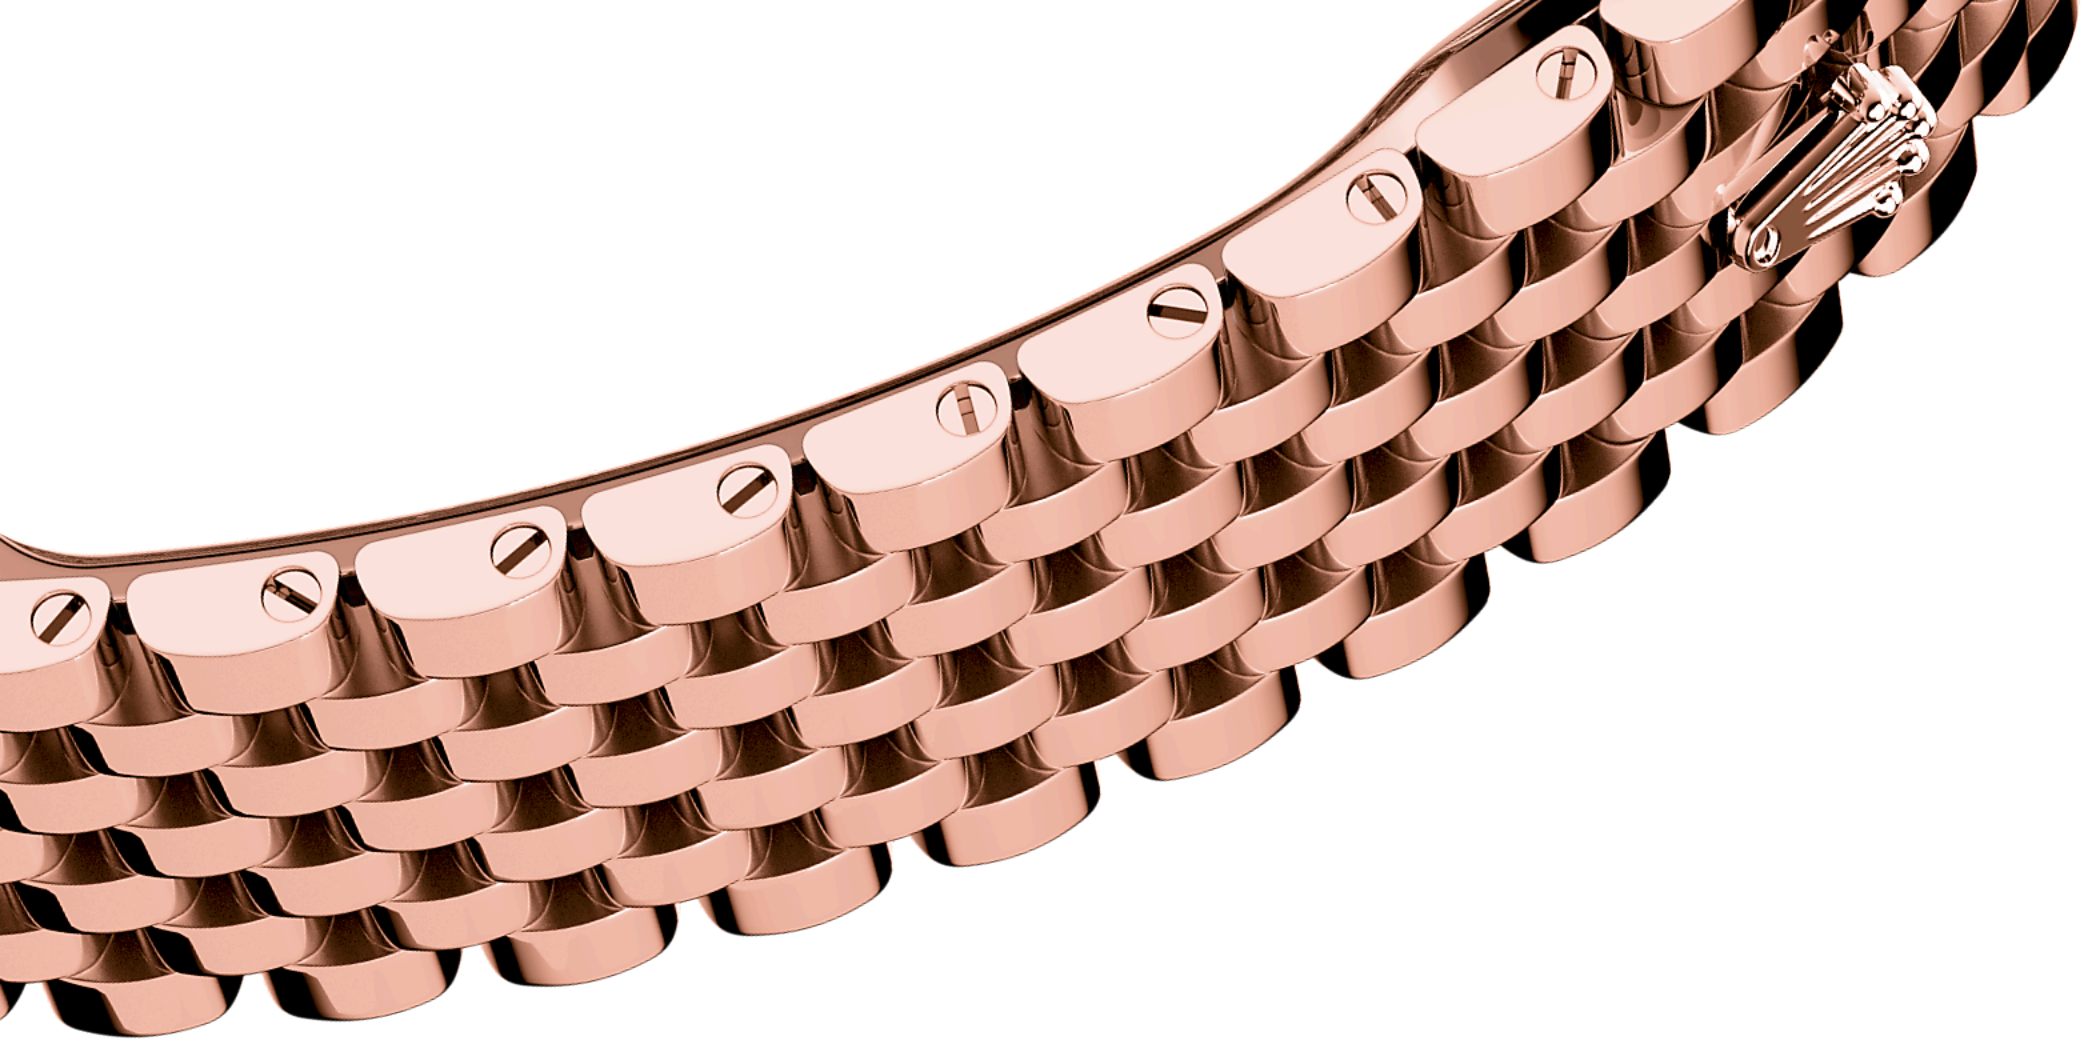

18 KT EVEROSE GOLD

An exclusive patent

To preserve the beauty of its pink gold watches, Rolex created and patented an exclusive 18 kt pink gold alloy cast in its own foundry: Everose gold.

Introduced in 2005, 18 kt Everose is used on all Rolex models in pink gold.

THE SETTIMO BRACELET

Elegance and comfort

This metal bracelet, fashioned from 18 kt Everose gold, exudes refinement and elegance. It gently hugs the shape of the wrist, making it extremely comfortable to wear. Thanks to its links made up of seven very small, slightly contoured link elements, polished on every surface, it also feels particularly lightweight.

With a special system to attach it to the middle case, for which a patent has been filed, the Settimo bracelet is reserved for the 1908 and the

Padellone watches. It is equipped with a concealed folding Crownclasp.
